Independent Auditor's Report

To the Board of Trustees
The Longmont Community Foundation
Longmont, Colorado

Opinion

We have audited the accompanying financial statements of The Longmont Community Foundation (a nonprofit Colorado corporation), which comprise the statements of financial position as of December 31, 2021 and 2020, and the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of The Longmont Community Foundation as of December 31, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Longmont Community Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Longmont Community Foundation's ability to continue as a going concern for one year after the date that the financial statements are issued.

Independent Auditor's Report (continued)

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Longmont Community Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Longmont Community Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies

Nature of Organization. The Longmont Community Foundation (the "Foundation") was established in 1988 to improve life in the St. Vrain Valley through philanthropy and charitable leadership. The Foundation receives gifts from individuals, foundations, and organizations and places them into individual funds that match the giving priorities of the donors.

The Foundation operated as an unincorporated affiliate of the Community Foundation of Northern Colorado until 2002, and thereafter, as an unincorporated affiliate of The Denver Foundation. In October 2013, the Foundation became a nonprofit corporation, and on August 31, 2014 separated from The Denver Foundation and commenced independent operations.

Basis of Presentation. The accompanying financial statements have been prepared on the accrual basis of accounting, whereby revenue is recorded when earned and expenses are recorded when grants are approved and materials or services are received.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Net Asset Classification. The Foundation distinguishes between contributions received for each net asset category in accordance with donor-imposed restrictions. The Foundation complies with established standards for external reporting by not-for-profit organizations, which requires that resources be classified for reporting purposes into two net asset categories according to externally (donor) imposed restrictions. The two net asset categories are as follows:

Net Assets Without Donor Restrictions. Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the Foundation's management and the Board of Trustees.

Net Assets With Donor Restrictions. Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity.

Interpretation of Relevant Law. The Board of Trustees has determined that a portion of the Foundation's net assets meet the definition of endowment funds under the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA), adopted by the State of Colorado in 2008. The Foundation is governed subject to the Articles of Incorporation and Bylaws for the Foundation and most contributions are received subject to the terms of the governing documents.

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Under the terms of the Articles of Incorporation and Bylaws the Board of Trustees have a variance power to modify any restriction or condition on the distribution of funds for any specified charitable purpose or to specified organizations if, in the sole judgment, of the Board such restriction or condition becomes, in effect, unnecessary, incapable of fulfillment, or inconsistent with the charitable needs of the area served. In addition, pursuant to the terms of endowment fund agreements, the Foundation retains ultimate authority and control over the investment, expenditure, distribution and grants of principal and income from endowment funds. It is the expressed intention of the Foundation to honor the designations of donors; however, the Foundation reserves the right to exercise final control over such funds.

In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the endowment fund, (2) the purposes of the institution and the endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation's investment policies.

As a result of the ability to distribute principal, the Board of Trustees has determined that all contributions received subject to the Articles of Incorporation, Bylaws, terms of endowment fund agreements, and subject to UPMIFA, are classified as temporarily restricted until appropriated, at which time the appropriation is reclassified to unrestricted net assets. Contributions that are subject to other gift instruments may be recorded as permanently restricted, temporarily restricted or unrestricted, depending on the specific terms of the agreement. In addition, contributions that are promised to be given in a future period are presented as temporarily restricted until the payments are due.

Endowment Investment and Spending Policies. The Foundation has adopted investment and spending policies to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. The Foundation's spending and investment policies work together to achieve this objective. The investment policy attempts to establish an achievable return objective through diversification of asset classes.

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk parameters.

The spending policy calculates the amount of money annually distributed from the Foundation's various endowed funds, for grantmaking and administration. The current spending policy is to distribute an amount equal to 5% of the fund's total market value based on a three year rolling average. Accordingly, over the long term, the Foundation expects current spending policy to allow its endowment assets to grow annually.

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

This is consistent with the Foundation's objective to maintain the purchasing power of endowment assets as well as to provide additional real growth through new gifts and investment return.

Cash and Cash Equivalents. For purpose of the statement of cash flows, the Foundation considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Investments. The Foundation's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Foundation's valuation policies utilizing information provided by the investment advisors and custodians.

The Foundation maintains investment pool accounts for its funds. Realized and unrealized gains and losses from securities in the investment pool account are allocated monthly to the individual funds based on the relationship of the market value of each fund to the total market value of the investment pool account, as adjusted for additions to or deductions from the account.

Fair Value Measurements. The Foundation reports using fair value measurements, which among other things requires enhanced disclosures about investments that are measured and reported at fair value and establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

Mutual Funds and Money Market Funds. Valued at the quoted prices in active markets for identical assets held by the Foundation at year end.

Certificates of Deposits. Valued at face value, which approximates the fair value.

Debt and Equity Securities. The Foundation values securities with readily determinable market values at fair value as determined by quoted market prices on national securities exchanges valued at the closing price on the last business day of the fiscal year. Securities traded on the over-the-counter market are valued at the last reported bid price.

Hedge Funds. Valued at NAV, without adjustment, of the units held by the Foundation at year-end. equal to the sum of the Fund's proportionate interests in the investment funds, as determined from financial information provided by the respective administrators or investment managers of the investment funds. These fair values represent the amounts the Fund would receive if it were able to liquidate its investments in the investment funds as of the measurement date, prior to any early withdrawal charges, if applicable. Some values received are estimates, subject to subsequent revision by the respective administrators or investment managers. Values received are generally net of management fees and incentive fees or allocations payable to the investment funds' investment managers pursuant to the investment funds' operating agreements. The investment funds value their underlying investments in accordance with policies established by each investment fund, as described in each of their financial statements or offering memoranda. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Private Portfolio. Valued at NAV, without adjustment, based on calculate the net asset value of each class of units as of the close of business on the last business day of each calendar month, each date that a unit is offered or repurchased, as of the date of any distribution and at such other times as the Board shall determine (each, a "Determination Date"). In determining its net asset value, the Fund values its investments as of the relevant Determination Date. The net asset value of the Fund will equal, unless otherwise noted, the value of the total assets of the Fund (including the net asset value of each class of Units), less all of its liabilities, including accrued fees and expenses, each determined as of the relevant Determination Date.

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain long-term investments, it is reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position.

Assets Held for Agency Funds. A fund established with a contribution from an organization for the benefit of the contributing organization is classified as an agency fund. The activity in agency funds is reported as a change in the liability "Assets Held for Agency Funds".

Contributions. Contributions, including unconditional promises to give (pledges), are recorded as received.

In-kind Contributions. Donated goods and equipment are recorded at estimated fair values as revenue and expense, or capitalized assets, depending on the nature of the donation. In-kind contributions are used to support the mission of the Foundation.

Functional Allocation of Expenses. Direct expenses have been allocated to the applicable program for which the expenses were incurred. Indirect expenses have been allocated between program and supporting services based on an analysis of personnel time and space utilized for the related activities.

Advertising. The Foundation expenses advertising costs as they are incurred. Advertising expenses for the years ended December 31, 2021 and 2020 were \$9,254 and \$6,967, respectively.

Income Taxes. The Foundation is a not-for-profit corporation exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code and has been found not to be a private foundation under Internal Revenue Code.

For uncertain tax positions, the Foundation uses a more-likely-than-not recognition criteria before and separate from the measurement of a tax position. The Foundation recognizes the financial statement effects of a tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. With respect to the Foundation, this would primarily relate to the determination of unrelated business taxable income, and to the maintenance of its tax exempt status.

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Management has evaluated the policies and procedures that have been implemented to provide assurance that income is properly characterized and activities that jeopardize its tax exempt status are within limits established under existing tax code and regulations. Management has determined the effects of uncertain tax positions are not material to the Foundation for recognition or disclosure in the accompanying financial statements and, accordingly, no income tax liability has been recorded for uncertain income tax positions in the accompanying financial statements.

Subsequent Events. Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through June 2, 2022, which is the date the financial statements were available to be issued.

Note 2 - Availability and Liquidity

The Foundation has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations become due. The Foundation has the following financial assets, primarily consisting of cash and cash equivalents and accounts receivables, available to meet the cash requirements for general expenditures within one year of the statement of financial position dates as of December 31:

	<u>2021</u>	<u>2020</u>
Financial assets, end of year		
Cash and cash equivalents	\$ 1,455,171	\$ 679,359
Investments	24,075,464	20,322,299
Total financial assets	<u>25,530,635</u>	<u>21,001,658</u>
Less donor restricted endowment funds not available to be used within one year	(6,711,739)	(5,894,621)
Less assets held for agency funds	<u>(10,334,068)</u>	<u>(8,399,349)</u>
Financial assets available to meet cash requirements for general expenditures within one year	<u>\$ 8,484,828</u>	<u>\$ 6,707,688</u>

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 3 - Investments and Fair Value Measurements

The Organization's fair value hierarchy for those investment assets measured at fair value on a recurring basis is as follows at December 31, 2021:

	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Debt and equity securities			
US large blend equities	\$ 8,475,887	\$ -	\$ 8,475,887
US large value	1,242,378	-	1,242,378
US mid value	657,987	-	657,987
International equities	4,602,077	-	4,602,077

Total investments at fair value			<u>\$ 20,322,299</u>

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 3 - Investments and Fair Value Measurements (continued)

The Foundation has been designated as a beneficiary in a charitable trust held by a bank. The beneficial interest in trustee assets are not included above in total investments.

Changes in Fair Value Levels. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Organization evaluated the significance of transfers between levels based upon the nature of the financial instruments and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2021 and 2020, there were no significant transfers in or out of hierarchy levels.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per unit/share as of December 31, 2021:

<u>Investment</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Hedge Funds	\$ 2,028,046	None	Semi-annually	95 days
Private Portfolio	\$ 1,135,222	None	Quarterly via tender offer, subject to Board approval	None, 30 days preferred

The following table summarizes investments measured at fair value based on NAV per unit/share as of December 31, 2020:

<u>Investment</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Hedge Funds	\$ 1,686,367	None	Semi-annually	95 days
Private Portfolio	\$ 860,788	None	Quarterly via tender offer, subject to Board approval	None, 30 days preferred

Investment earnings (losses) consisted of the following for the years ended December 31:

	<u>2021</u>	<u>2020</u>
Interest and dividends	\$ 446,182	\$ 299,337
Net realized investment gains (losses)	227,561	(175,910)
Net unrealized investment gains (losses)	<u>1,018,741</u>	<u>1,297,747</u>
	<u>1,692,484</u>	<u>1,421,174</u>
Investment fees	<u>(27,044)</u>	<u>(26,412)</u>
Net investment gains (losses)	<u>\$ 1,665,440</u>	<u>\$ 1,394,762</u>

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 5 – Operating Lease

The Foundation leases office space in Longmont, Colorado under a noncancelable operating lease. The lease requires monthly payments of \$3,710, subject to annual escalations, and expires in August 2022. Rent expense, including utilities, taxes, and parking, under the lease totaled \$44,115 and \$43,929 for the years ended December 31, 2021 and 2020, respectively.

Future annual minimum base rental lease payments under the operating lease total \$18,362 in 2022 as of December 31, 2021.

Note 6 – Retirement Plan

The Foundation has established a retirement plan under Section 401(k) of the Internal Revenue Code. Employees are eligible to participate at 18-years of age. The plan requires matching contributions equal to 100% of employee salary deferrals up to 4% of employee compensation. The Foundation contributed \$5,580 and \$3,692 during the years ended December 31, 2021 and 2020, respectively.

Note 7 – Concentrations

Support. The Foundation receives predominantly all of its support and revenue from Longmont, Colorado and surrounding communities. In any year, it may receive large gifts from a limited number of donors who may vary from year to year.

Cash. The Foundation routinely maintains cash balances in excess of federally insured limits.

Investments. The Organization's investments subject to credit risk consist primarily of mutual funds. The credit risk is reduced by maintaining the investments in a variety of funds. The investment funds are held and managed by a single financial institution trustee.

Note 8 – Risks and Uncertainties

During 2020, a health care pandemic occurred in the United States and internationally. In response to this crisis, the federal, state, and municipal governments enacted various policies to curtail business activities until the risk has diminished. The negative impact on the global economy has created uncertainty around the success of future fundraising activities, and the investments held by the Foundation are subject to declines in investment valuations. No reliable estimate of the potential future financial impacts of this uncertainty on the Foundation can be made at this time.

The Longmont Community Foundation

Notes to Financial Statements

December 31, 2021 and 2020

Note 8 – Risks and Uncertainties (continued)

In May 2020, the Foundation received loan proceeds of \$27,315, pursuant to the Paycheck Protection Program of the Coronavirus Aid, Relief and Economic Security Act (CARES Act). All or a portion of the loan may be forgivable if spent for specified expenditures, primarily payroll, within the allowable time frame. The Foundation has complied with the requirements of the program and has been granted forgiveness of the loan. Accordingly, the Foundation recognized other income for the gain on forgiveness of the loan totaling \$27,315 in the accompanying financial statements for the year ended December 31, 2020.
